Victim Services Performance Measurement Initiative
FY2023 Victim Data Measures

**The OVSJG Performance Measurement Initiative (PMI) is not intended to replace each grant’s goals and objectives. Each application should detail goals and objectives that the potential grantee hopes to meet with the grant funding, during the grant period.**

The victim data measures that will be required for OVSJG grantees in Fiscal Year 2023 are:

**Number of unique primary victims** served by OVSJG funding each quarter. *(For the purposes of this performance measure, unique means one person. In this number, you should count both new and continuing victims. A primary victim is a person who has been directly injured as the result of the crime; it is the person against whom the crime was committed. A primary victim is the direct target of the victimization and/or was the person that is legally considered the victim of the crime. Sub-grantees may not count a person twice in this category even if that person received more than one service.)*

New vs. Continuing
- **New** primary victims served (e.g. victims who began service during this reporting period). All clients served are considered **New** for the first quarter: Since it is a new grant cycle, all of the clients you’ve served this past quarter are considered new, even if you have served them previously under different OVSJG grants.
- **Continuing** primary victims served (e.g. victims who began service during a prior reporting period but have continued receiving service in this reporting period). There should not be any continuing victims reported in the first quarter of the FY.

Unique **new** primary victims served, by victim’s stated gender
- Man/boy
- Woman/girl
- Self-identified as transgender woman/girl
- Self-identified as transgender man/boy
- Prefer not to say

Number of unique secondary victims served by OVSJG funding each quarter. (For the purposes of this performance measure, unique means one person. In this number, you should count both new and continuing victims. A secondary victim is a person who has been injured as the result of the primary victim’s victimization; it is a person who, by the nature of their relationship to the primary victim, is injured. It is understood that a sub-grantee may not serve secondary victims or may not track secondary victims. However, a person who is injured as the result of a loved one’s homicide is, by definition, a secondary victim. Sub-grantees may not count a person twice in this category even if that person received more than one service.)

New vs. Continuing

- New secondary victims served (e.g. victims who began service during this reporting period). All clients served are considered New for the first quarter: Since it is a new grant cycle, all of the clients you’ve served this past quarter are considered new, even if you have served them previously under different OVSJG grants.
- Continuing secondary victims served (e.g. victims who began service during a prior reporting period but have continued receiving service in this reporting period). There should not be any continuing victims reported in the first quarter of the FY.

**Number of unique (primary and secondary, new and continuing) victims served by the organization's victim services programs as a whole each quarter.** (This performance measure should include, but not be limited to, the number served by OVSJG funding. For organizations that serve populations other than crime victims, this number is the total number of people served by the organization’s crime victim services or violence prevention program only.)

**Location of residence for each unique new crime victim served each quarter** (both primary and secondary). For the purposes of this performance measure, unique means one person. Sub-grantees may not count a person twice in this category even if that person received more than one service. Location of residence means the quadrant in which the crime victim resides. If the crime victim has a permanent address out of the District, there will be a category to capture that data. If the crime victim has no fixed address, there will be a category to capture that data. While OVSJG will accept “Unknown” as a category, every effort should be made by the sub-grantee to determine the crime victim’s location of residence.

- Unknown
Category of crime victim for each unique new victim (primary and secondary) served with OVSJG funding each quarter. Sub-grantees should list a crime victim in the category (or categories) for which the crime victim accessed or is accessing services right now. Do not include crimes that occurred to the victim in the past unless that crime is the reason for which the victim is accessing services in this reporting quarter. Examples include homicide, intimate partner violence, sexual assault, child physical or sexual abuse, and stalking (For the purposes of this performance measure, clients who are victims of multiple crimes may be counted in more than one category. It is possible that the number generated in this performance measure does not equal the total number of unique victims served. For example, one unique victim may have been a victim of both intimate partner violence and sexual assault. That would be counted in both categories.)

- **Terrorism**
  As defined as the use of violence or intimidation to coerce a government or civilian population to further political or social objectives.

- **Other**
  Defined as other crimes not listed.

**Type of service provided to each unique crime victim (primary and secondary) served with OVSJG funding each quarter.** Sub-grantees should list a crime victim under the type of service (or services) for which the crime victim accessed or is accessing services right now. Do not include services accessed by a continuing (e.g. received by a victim served earlier in this fiscal year) in this reporting period but a sub-grantee MAY include a new type of service accessed by the crime victim in this quarter.

*For example, if a victim is served in Quarter 1 and receives case management, and the same victim is served in Quarter 2 and receives case management and mental health care, you only include mental health care in this reporting period since you already reported the case management in the prior reporting period. Examples of type of service include case management, criminal justice advocacy, civil legal services, criminal legal services, mental health counseling, forensic or medical care, housing, hotline services, etc. (For the purposes of this performance measure, clients who are being provided more than one type of service may be counted in more than one category. It is possible that the number
generated in this performance measure does not equal the total number of unique victims served.)

- **Advocacy** - Providing information and personal support in clarifying options, learning or asserting rights, and accessing services to support recovery from crime victimization.

Service to Victims with Limited English Proficiency

Number of Limited English Proficient (LEP) clients served each quarter. For the purpose of this performance measure, LEP means a client who does not speak English proficiently or who speaks English in a limited way.

Number of times your agency accessed the victim services interpreter bank each quarter. For the purpose of this performance measure, the victim services interpreter bank means the interpreter bank provided through grant funding by the Office of Victim Services and Justice Grants.

Service to Victims with Crime Victims Compensation (CVC)

Number of unique victims provided with information about the (Crime Victims Compensation) CVC. For the purpose of this performance measure, The Crime Victims Compensation Program provides financial assistance and reimbursement to innocent victims of violent crime and their families with crime-related expenses.

Number of unique victims’ CVC claims for which your agency or organization provided assistance in filing or referrals for filing.

For the purpose of this performance measure, providing CVC assistance includes support in clarifying options, reviewing eligibility, assistance in applying or referring a victim to a program that can assist them in applying for CVC.
